READ THE FOLLOWING PASSAGE AND ANSWER THE QUESTIONS 23 TO 26

Mrs. Agyeman, a primary school teacher in Kumasi, applies various learning theories. She uses Vygosky's social constructivists theory by encouraging collaborative learning in small groups. She designs age-appropriate task based on Praget's cognitive development theory. She uses scaffolding to provide

support, reducing this support as students gain independence. Incorporating Gardner's Multiple intelligences theory, she creates activities for different intelligences. Using skinner's operant conditioning theory, she rewards positive behaviour and effort. This approach ensures her students learn effectively and develop critical thinking skills.

COMPILED BY HENRY BOATENG ADMINISTRATOR (0246683859)

23. Which of the theories involves collaborative learning?

A. Behaviourism

B. Cognitivism

C. Multiple intelligence

D. Social constructivism

Answer: D- Social constructivism

24. From the passage, Mrs Agyeman uses Piaget's theory to ensure that

A. Individual differences are taken care of

A. Criterion-referenced assessment
B. Diagnostic assessment

COMPILED BY HENRY BOATENG ADMINISTRATOR (0246683859)

C. Norm-referenced assessment
D. Summative assessment

Answer: A- Criterion-referenced assessment

29. Which of the following describes a portfolio assessment?
A. A Collection of student work that demonstrate learning progress and achievements

B. A multiple-choice test covering all subjects an knowledge areas
C. A standardized test that is given at the end of the year
D. An oral examination to assess the knowledge and skills of the students

Answer: A- A Collection of student work that demonstrate learning progress and achievements

COMPILED BY HENRY BOATENG ADMINISTRATOR (0246683859)

30. Which of the following is a characteristics of a reliable assessment?

A. It is easy to administer among students

B. It is fair to all students and teachers

C. It measures what is intended to measure

D. It yields consistent results over time

Answer: D-It yields consistent results over time

31. A test that accurately measures what it is supposed to measure is said to have……

A. Fairness

B. Objectives

C. Reliability

D. Validity

Answer: D- Validity

32. Which type of assessment is typically used to identify students

strengths and weaknesses before instruction begins?
A. Benchmark assessment
B. Diagnostic assessment
C. Formative assessment
D. Summative assessment

Answer: B- Diagnostic assessment

33. Which of the following is an example of a formative assessment?
A. Classroom discussion
B. End-of-term exam

C. Final project
D. Standardized test

Answer: A-Classroom discussion

34. What does the high - stakes test refer to?
A. A test that covers a wide range of subject areas
B. A test that has significant consequences for the test taker

C. A test that is administered frequently in the classroom
D. A test that is expensive to administer in the classroom

Answer: B- A test that has significant consequences for the test taker

35. Rubrics are used in educational assessment to
A. Conduct standardized testing for all students

B. Evaluate student performance based on specific criteria
C. Measure physical fitness of all students in the school
D. Record attendance and participation in the school

Answer: B- Evaluate student performance based on specific criteria

36. Which of the following is a major goal of inclusive education?

A. To create specialized schools for students with disabilities
B. To eliminate standardized testing for all student with disabilities
C. To provide equal educational opportunities for all students
D. To separate students based on their abilities and disabilities

COMPILED BY HENRY BOATENG ADMINISTRATOR (0246683859)

Answer: C- To provide equal educational opportunities for all students

37. The Sustainable Development Goal (SDG) 4 focuses on all the following except
A. Ensuring equitable education
B. Ensuring free education
C. Ensuring quality education
D. Promoting life-long learning

COMPILED BY HENRY BOATENG ADMINISTRATOR (0246683859)

Answer: B- Ensuring free education

38. Which of the following best describes the purpose of the filled classroom model?
A. To eliminate the need for textbooks and provide more homework for students
B. To have students engage with learning material prior to classroom engagements

C. To increase teacher-directed lessons to provide less homework for students

A. Analysing
B. Applying
C. Creating
D. Understanding

Answer: C- Creating

44. John Dewey is most closely associated with which educational philosophy?
A. Essentialism
B. Perennialism
C. progressivism
D. Reconstruction

Answer: C- Progressivism

45. Which of the following is a characteristic of a well-manage classroom?

A. Frequent teacher reprimands

B. High levels of student engagement

C. Inconsistent application of rules

D. Structured lesson plans

Answer: B- high levels of student engagement

46. Which principle of learning suggests that practice is necessary for mastering skills?

A. Law of effect

B. Law of exercise

C. Law of primacy

D. Law of readiness

Answer: B-Law of exercise

47. Constructivist teaching strategies often include

A. Project-based learning

B. Role of memorization

C. Standardized testing
D. Teacher-centered lectures

Answer: A-Project-based learning

48. In Maslow's hierarchy of needs which need must be met first?
A. Esteem
B. Physiological
C. Safety
D. Self-actualization

Answer: B- Physiological

49. Which of the following is an example of intrinsic motivation?
A. Learning a new language out of interest
B. Participating in sports to win medals
C. Studying hard to avoid punishment
D. Working on a project for a reward

Answer: A-Learning a new language out of interest

50. Which of the following is the primary purpose of formative assessment?
A. To assign final grades to students performance
B. To compare students performance to national standards
C. To evaluate the effectiveness of the educational programme

COMPILED BY HENRY BOATENG ADMINISTRATOR (0246683859)

D. To provide ongoing feedback to improve teaching and learning

Answer: D- To provide ongoing feedback to improve teaching and learning

SECTION B

TRUE OR FALSE QUESTIONS

INSTRUCTION: Answer all questions in this section by circling the letter corresponding to the

correct or best answer on your question paper.

51. The digital divide refers to the gap between students with access to modern students with communication technology and those without access.
A. True
B. False
Answer: A- True

52. STEM education includes the study of

science, Technology, English and Mathematics.

A True

B.False

Answer: B- False

53. A flipped classroom model typically involves students doing homework in class and watching lectures at home.

A. True

B. False

Answer: A- True

54. In Ghana, 21st- Century skills are limited to technical and vocational skills.

A. True

B. False

Answer: B- False
